☐ Sign me in when Skype starts

Sign me in

To log into Skype, first pull it up on your computer. Then type in your Skype name and password in the designated spots (highlighted in the yellow box in the picture to the left). If you would like to be signed into Skype whenever Skype starts, make sure to click the “sign me in when Skype starts” box. Then click the “Sign me in” button.

**Congrats! You have logged into Skype!**
